

Can't Go Back

Alex Jean

I just can't go back I can't throw back
Turn nothing to something
I got sin I'm gonna dump it
Faith is how I'm coming
They been waiting on this word to drop
My whole life been better
Gave that back to God now I'm hot

Holy Spirit on my brain I don't need a tango
Sword of the spirit is my weapon keep that thang close
Why would I stress bout the bread or the bankroll?
If he can send the rain what the stress for?
Ima dog and I don't care bout your opinion
Better watch the way you talk to me I'm vicious
You can't tell me where I'm going tunnel vision
I ain't like nothing that you seen before I'm different

I just can't go back I can't throw back
Turn nothing to something
I got sin I'm gonna dump it
Faith is how I'm coming
They been waiting on this word to drop
My whole life been better
Gave that back to God now I'm hot

Step with God so why would you play with me
Got my sword on my hip yeah it stay with me
Jezebel get to steppin can't lay with me
Ima preacher don't care what you say to me watch this
Can't go back to sin
Got my dogs in the church we packin in
Big body skurt skurt backin in
Moving real clean bring the vacuum in
Why they want us to beef?
This is my brother in Christ
Demons is under our feet
I'm ready to eat
God he be setting the table know he preparing my feast
Ok when I speak know ima dog on these beats
That's why I iced out the leash
You know where I be bottom of the middle of the map
Shout out to 313
