

Times First Notes

Alex Jean

In the beginning was the Word
And the Word was with God, and the Word was God
In the beginning was the Word
And the Word was with God, and the Word was God
Ayy

We sit back to the top so I know they can get it
In the beginning, it's good, it's finished
My Father, He went down and made me a Christian
I'm feelin' free like I broke out of prison
I'm back in the Book, at the top, I'ma listen
They never thought I'd be back in the kitchen
I live for the King 'cause He makin' a difference
Matter of fact, I just know I'm forgiven

Hrr, ayy, and was with who? (In the beginning was the Word, and
the Word was with God, and the Word was God)
We said, like the Word (In the beginning was the Word, and the
Word was with God, and the Word was God)

Huh, who would've even I would be trippin'
Who would've even thought I wouldn't put all my trust in the On
e that was already risen
Who would've thought that I wouldn't go open the Book and go pu
t all my trust in the vision
They finna act like it is what it isn't
I need me the Spirit, don't need a physician

(In the beginning was the Word, and the Word was with God, and
the Word was God) God
(In the beginning was the Word, and the Word was with God, and
the Word was God)

Ayy, I didn't care if the world wasn't with it
I stay with the King, clean, repentant
They wanted me to be back in the kitchen
I need me the fruit of the spirit, we whip it
Deep in my Word and I'm not finna finish
I know there's a reason He made me forget it
Know there's a reason to pay petition
I know there's a reason He in the beginnin'

Hrr, and was with who? (In the beginning was the Word, and the
Word was with God, and the Word was God)
We said, like ayy (In the beginning was the Word, and the Word
was with God, and the Word was God)

Huh, in the beginning, He did it

The Lord still my witness

He finna bring down the kingdom of God to the Earth, end up like the beginning
