

# I Want To Live With You

Alex Lahey

Let's have a conversation  
Between the kitchen and the living room  
Let's combine all our books and records  
And forget what belongs to who

You want dinner parties  
With people we both know  
And I like the thought of being  
The one you come home you  
And you know

I want to live with you  
I want to be where you wake up  
I want to live with you  
I don't care where we end up

Let's get that photo that you love of us  
Framed and hung in our bedroom  
Let's sleep with the door open  
'Cause we know there's no one else who's coming through

Set up the boxes  
Removalist services to my door  
We split the rent like we split our bed  
I want nothing more
