

Monkey See Monkey Do

Alex Mali

Don't watch me, watch TV
Why you're worried about what I'm doing?
Oh. That's right. I forgot you need a Muse
I know it's me

I got the vision but you know how to trace
I switch it up. I see you're doing the same
I'm your inspiration and though you never say it
I know it's me

It's true
What they say when monkey see then monkey do
I can't blame you for believing
Somehow you could be me too
If I was you
I would inspire me too

If you need a little motivation
You can ask
I got you
No gate-keeping, no information
Only think I'll need is half
Plus interest from the past

Since I got the vision and you know how to trace
I think it's better this way
Because inevitably you've gotta say
It's all Mali

Yeah. It's true
Yeah. It's true
What they say when monkey see then monkey do
I can't blame you for believing
Somehow you could be me too
If I was you
I would inspire me too

True
What they say when monkey see then monkey do
I can't blame you for believing
Somehow you could be me too
If I was you
If I was you
I would inspire me too
