

# We Never End

Alex Mattson

Where are you now?  
What are you doing?  
I miss it when  
I know how you've been  
Lie on the couch  
Thinking of you and  
My head on your chest  
I'd go back again

Somebody's sleeping where you were before  
But you'll always be mine and I'll always be yours  
I had enough, still I come back for more  
'Cause I'll always be mine and I'll always be, always be yours

We never end  
We say goodbye again and again  
Like we think we can  
That's what we do  
We took our words to somebody new  
Then we begin again  
Ooh, we never end  
(We say goodbye again and again  
Like we think we can)  
Ooh, we never end  
(We took our words to somebody new  
Then we begin again  
Ooh, we never-)

I've been okay, my days are busy  
Keep moving on, but you're never gone  
Now it's getting late and I hope you miss me  
'Cause I wanna talk, it's not all I want

Somebody's sleeping where you were before  
But you'll always be mine and I'll always be yours  
I had enough, still I come back for more  
'Cause I'll always be mine and I'll always be, always be yours

We never end  
We say goodbye again and again  
Like we think we can  
That's what we do  
We took our words to somebody new  
Then we begin again  
Ooh, we never end  
(We say goodbye again and again  
Like we think we can)  
Ooh, we never end  
(We took our words to somebody new  
Then we begin again  
Ooh, we never end)

Ooh, I can't help myself  
I don't really want to  
And when I'm with someone else  
I'm still with you  
Oh no, I can't help myself

I don't really want to  
And when I'm with someone else  
I'm still with you

We never end  
We say goodbye again and again  
Like we think we can  
That's what we do  
We took our words to somebody new  
Then we begin again  
Ooh, we never end
