

# Cold Shoulder

Alex Sampson

You had me wrapped up  
Around your finger  
You made an August  
Feel like winter  
Don't know how I was supposed to  
Light up your heart  
With no vision in the shadows  
'Cause you left me in the dark

Don't be sad it's over  
Don't regret us getting closer (Oh)  
You got everything you hoped for  
While I got a cold heart, your cold shoulder  
Cold shoulder

You used to cry there  
On your bad days  
I had to stop holding  
Your tears against me  
Two or three days tops, you're over us  
And you found somebody  
But if he had what you wanted  
Why you coming back to me?  
(Hey!)

Don't be sad it's over (Oh, oh)  
Don't regret us getting closer (Oh)  
You got everything you hoped for  
While I got a cold heart, your cold shoulder  
Cold shoulder

I loved you, I loved you, I loved you  
I swear that I loved you  
I loved you, I loved you, I loved you  
Just not enough to  
Take your pain

Don't be sad it's over (Oh, oh)  
Don't regret us getting closer  
(Don't regret, don't regret, don't regret it no)  
You got everything you hoped for  
(You got it baby)  
While I got a cold heart, your cold shoulder  
(Cold shoulder)  
Cold shoulder
