

If You Were My Girl

Alex Sampson

Saw you at cross the room
With your lipstick cherry red
You looked kinda blue
Must've been something he said

Love shouldn't go
It don't make you wish it would
Darling, you know
He don't treat you like he should

If you were my girl
I would never run away
My girl
I would kiss you every day
In every way
You'd be my baby, yeah you'd be my all
You'd be my world
If you were my girl

I said hello
And you smiled so beautiful
Talked for a while
You're a classic original

Love shouldn't go
It don't make you wish it would
Darling, you know
He don't treat you like he should

If you were my girl
I would never run away
My girl
I would kiss you every day
In every way
You'd be my baby, yeah you'd be my all
You'd be my world
If you were my girl

Darling, you know
My darling

If you were my girl
I would never run away
My girl
I would kiss you every day
In every way
You'd be my baby, yeah you'd be my all
You'd be my world
If you were my girl
I would never run away
My girl
I would kiss you every day
In every way
You'd be my baby, yeah you'd be my all
You'd be my world
If you were my girl
