

Lemonade

Alex Sampson

One look I'm so hooked
It isn't fair
Witcha green eyes, tan lines & curly hair
Too hot like blacktop in summertime
Til you turn cold in the dead of Night

You tell me you love me, you're telling me off
You're turning the corner, you're turning me on
But you only want me the second I'm gone
You talk real dirty witcha your

Lips so sweet, lemonade
You're one tall drink, minute maid
I need to fill my cup sugar pour it
Come over let's stay up til the morning
Feels so fresh, lemonade
I'm obsessed by the way
Baby you taste so sweet when you're sour
You get me so damn hot need a shower

I love the way you feel
I love the way you taste
I gotta have it, baby I could drink a case
Every time we kiss I get a sugar rush
Need it in my veins I never get enough

You tell me you love me, you're telling me off
You're turning the corner, you're turning me on
You know that you got me whenever you want
So talk real dirty with your

Lips so sweet, lemonade
You're one tall drink, minute maid
I need to fill my cup sugar pour it
Come over let's stay up til the morning
Feels so fresh, lemonade
I'm obsessed by the way
Baby you taste so sweet when you're sour
You get me so damn hot need a shower

Lemonade
Lemonade

Little sugar, little lemon
When you mix em all together, that's a bad girl
Come over, after seven
Give you something that'll keep me in your head girl
Little sugar, little lemon
When you mix em all together, that's a bad girl
Come over, after seven
Give you something that I know will make you feel so

Sweet, lemonade
I can't blink or turn away
'Cus I need to fill my cup sugar pour it
Come over let's stay up til the morning
Feels so fresh, lemonade

I'm obsessed by the way
Baby you taste so sweet when you're sour
You get me so damn hot need a shower
