

This Christmas (Feels Like Love)

Alex Sampson

Baby, do you believe in love at first sight?
I think I felt it when you looked at me last night
I'm here wishing at the night sky
Hoping Santa knows that I been being real nice

Ooh...
I don't want no present wrapped up
I want you...
We can dance in the snow if you're ready to go

This Christmas feels like love
You're all I want this holiday
You feel but you wanna know
We could be anything everything
Baby, just say the magic word
This Christmas, this Christmas this Christmas
Feels like love to me
This Christmas this Christmas this Christmas
It feels like love to me

You're looking cute in an ugly sweater
It's getting cold but we don't mind the weather
You warm me up I'm like a stocking on the fireplace
And girl, you know, I wouldn't have it any other way

Ooh...
I don't want no present wrapped up
I want you...
If we're staying inside be my Angel tonight

This Christmas feels like love
You're all I want this holiday
You feel but you wanna know
We could be anything everything
Baby, just say the magic word
This Christmas, this Christmas this Christmas
Feels like love to me
This Christmas this Christmas this Christmas
It feels like love to me

Candy canes sparkling
Diamond ring ornament
Caroling nipping at your nose
Come and kiss me
Underneath the mistletoe
Tripping and falling I'm
Writing a song we can
Sing that we know with our eyes closed
Come and kiss me
Underneath the mistletoe

This Christmas feels like love
You're all I want this holiday
You feel but you wanna know
We could be anything everything
Baby, just say the magic word
This Christmas, this Christmas this Christmas

Feels like love to me
This Christmas this Christmas this Christmas
It feels like love to me
