

Til The World Gets Sick Of Us

Alex Sampson

We watched Shrek 2 over zoom
You were in your bedroom
Told you you look cute
But your face turned blue
So scared, so scared
That they're all against us
I'm here, right here never on your own
I'm here, right here
Whispered through the phone
No fear, no fear
I'll protect us

(1 2 3 4)

I'm here when the walls start closing
I'm here when the sky starts falling down
We'll dance through a broken city
We'll scream till the world gets sick of us
Til the world gets sick of us
Til the world get, world get

Too young so young
What do we both know
Bout love true love
And the way it grows
It's clear so clear
We're above this, yeah

I'm here when the walls start closing
I'm here when the sky starts falling down
We'll dance through a broken city
We'll scream till the world gets sick of us
Til the world gets sick of us
Til the world get, world get

I'm here when the walls start closing
I'm here when the sky starts falling down
We'll dance through a broken city
We'll scream till the world gets sick of us!

I'm here when the walls start closing
I'm here when the sky starts falling down
We'll dance through a broken city
We'll scream till the world gets sick of us
Til the world gets sick of us
Til the world get, world get
We'll scream til the world gets sick of us
