

# Permanent Summer

Alex Schulz

(?...) just how you like it  
At sunrise to midnight  
All this sweet love in the morning  
Strip down and up high

Only summer when you thought your mind is fading  
Only lovers know what loving really does  
I don't mind to fall with you, you're falling with me  
Only lovers know

(2x)  
It's a permanent summer  
Permanent summer

It's a permanent summer/x2  
Permanent summer  
It's a permanent summer  
Permanent summer

It's like you felt in the water  
Warm and rising  
(?)  
Kiss the horizon

Only summer when you thought your mind is fading  
Only lovers know what loving really does  
I don't mind to fall with you, you're falling with me  
Only lovers know

It's a permanent summer  
Permanent summer  
It's a permanent summer

It's a permanent summer/x3

But it's a permanent summer
