

# I Will Make You Whole

Alex & Sierra

Sierra

And darling if you ever fall and buckle  
At your knees  
You know I'll find you  
And I will make you whole

Alex

And darling if you ever crumble  
Turn to dust and blow away  
I'll find you  
And I will make you whole

Razem

We got moonlight  
We got love  
And that's enough for the both of us  
As sure as the sun does rise  
I will make you whole  
I will make you whole  
I will make you whole

Sierra

And darling if you're feeling worn  
Like your seams have come undone  
I'll find you  
And I'll stitch you up

Razem

We got moonlight  
We got love  
And that's enough for the both of us  
As sure as the sun does rise  
I will make you whole  
I will make you whole  
I will make you whole

Razem

If I fall I'll fall into you  
If you're lost then I'll bring you back home

Razem

I will make you whole  
I will make you whole  
I will make you whole
