

Low

Alex Vargas

I see fire, I see rain
Stuck inside this pit again
There's a trembling in my soul

Why must I chase the little fight
All I want is love and light
But there's the trembling that I know

Fix a mood
Man I'm good
Call me bad Hollywood
This is what I need
So just let me go

River's deep
Currents sweep
Shovel and the bottom meet
Honey, don't you see
I'm digging for gold

When I go low
When I go low
When I go low

I'm a lot I know I am
Tend to bite a helping hand
I've pushed the boundaries of your love

Sinking in but I'll survive
This is where I come alive
Shadows fit me like a glove

Kill the light
Bring the night
Anything to feed the fight
This is what I need
So just let me go

River's deep
Currents sweep
Shovel and the bottom meet
Honey, don't you see
I'm digging for gold

When I go low
When I go low
When I go low

You're going low to get high
You're gonna dig till you die
You better come back up
When I go low

You're gonna take it too far
Don't even know who you are
Come back and give it up
When I go low

You're going low to get high
You're gonna dig till you die
You better come back up
When I go low

You're gonna take it too far
Don't even know who you are
Come back and give it up
When I go low
