

# Mama, I've Been Dying

Alex Vargas

And when I get back to that same old square  
You could meet me there  
And we could talk  
See, I've been waking up at night in sweats  
The kind that always lets  
Monsters walk

My love, my love  
Withers when I give in  
To this feeling  
My love, my love  
Withers when I let it fall

Mama, I've been dying  
Mama, I've been trying  
Mama, I've been dying to know  
Now I'm getting older  
Is it almost over?  
Mama, I've been dying to know

I'm hearing whispers of a miracle  
It's a vehicle  
So pristine  
If it's a way to get my soul restored  
I should get onboard  
Love is a big big machine

Love is a big big machine  
Love is a big big machine  
Love is a big big machine  
Love is a big big machine

Mama, I've been dying  
Mama, I've been trying  
Mama, I've been dying to know  
Now I'm getting older  
Is it almost over?  
Mama, I've been dying to know

Love is a big big machine  
Love is a big big machine  
Love is a big big machine  
Love is a big big machine

Mama, I've been dying  
Mama, I've been trying  
Mama, I've been dying to know  
Now I'm getting older  
Is it almost over?  
Mama, I've been dying to know
