

Now That I Think About It

Alex Vargas

Now that I think about it
Now that I think about it
Now that I think about it
Now that I think about it

Put you up on the highest shelf
I'll talk 'cause I know myself
Leave you be to collect your dust
And give me some to forget about
Out of sight but you're in my mind
Shut it off but you left a light on
And it trickles down to my chest
A feeling I can't get around
Need a push just to get me started
Tell me how to get by without it
Will forgive but I don't know how
You and I are a lot alike
I love just as hard as you do
And the moment captures me too
I know I said that this was it
But now that I think about it
(But now that I think about it
But now that I think about it)

I wanna know
Does your world stop when you think of me?
Do you seconds halt in disbelief?
I wanna know
Now that I think about it
Now that I think about it
And do you dream
We might wake up at any time?
And does your heart drop just like mine?
'Cause I know that we won't
Now that I think about it
Now that I think about it

I know it hurts but the fact remains
You and I we can't be safe
At this point nothing I'd rather do
Than to close the door and lock you out
But I love as hard as you do
And the only thing it'll need through
Is that you remember just as well
So now that I think about it
(But now that I think about it
But now that I think about it)

I wanna know
Does your world stop when you think of me?
Do you seconds halt in disbelief?
I wanna know
Now that I think about it
Now that I think about it
And do you dream
We might wake up at any time?
And does your heart drop just like mine?

'Cause I know that we won't
Now that I think about it
Now that I think about it

Now that I think about it
Now that I think about it
Now that I think about it
Now that I think about it
