

# Tidal

Alex Vargas

Gather all my senses, lock them all away  
Sell off what I care for  
Leave the way I came  
I have warned you out, dear  
It's showing on your face  
Surely now you know  
I'm pushing you away  
But you hold on, hold on

Now that I know our love is tidal  
Pushing fools around  
How do I get back in control?  
Maybe I need to let you go  
If I could just reverse the spiral  
Stop us spinning out  
How do I get back in control?  
I really need to let you go

Fight or flight again  
I think I'm gonna pass  
Surely you could learn to love me  
Without me being here  
But you hold on, you hold on  
And I'll look in the mirror  
Can't stomach what I see

Now that I know our love is tidal  
Pushing fools around  
How do I get back in control?  
Maybe I need to let you go  
If I could just reverse the spiral  
Stop us spinning out  
How do I get back in control?  
I really need to let you go

How can you be something to someone  
If they won't hear you out?  
Now I'll turn the tide instead  
And I'll learn to love you less  
Maybe I'm not the best at talking  
Can't you see I'm trying?  
You and I we don't exist  
So I'm gonna learn to love you less

Now that I know our love is tidal  
Now that I know our love is tidal  
Now that I know our love is tidal  
Now that I know our love is tidal

Now that I know our love is tidal  
Pushing fools around  
How do I get back in control?  
Maybe I need to let you go  
If I could just reverse the spiral  
Stop us spinning out  
How do I get back in control?  
I really need to let you go

Now that I know our love is tidal  
Now that I know our love is tidal  
Now that I know our love is tidal  
Now that I know our love is tidal
