

# First Time On Earth

Alex Warren

Been walking on a tightrope, juggling high hopes and reality  
Just trying not to mess up, tryna keep my head up, fighting gravity  
I can't outrun growing up, I still feel like a kid

Quick to judge the ones we love  
Sometimes I forget

It's your first time on Earth too  
And I hope that you know that I don't blame you  
It's just pain that you were passing down  
I'm older, and I see it now  
It's your first time on Earth too

Watch bottles in the cabinet, tryna kill a habit that was killing you  
Back then, I didn't get that you gave me the best that you knew how to do  
You were far from done growing up when you had a kid

Quick to judge the ones we love  
Sometimes I forget

It's your first time on Earth too  
And I hope that you know that I don't blame you  
It's just pain that you were passing down  
I'm older, and I see it now  
It's your first time on Earth too

When you pass through the waters, I'll be with you  
Just 'cause I'm angry sometimes, don't mean I don't miss you  
You had your issues and I had mine  
Oh, I'd forgive you if we still had time  
I was too young, I couldn't see  
The world on your shoulders, you traded your dreams  
For me, for us, is that just life?  
Nobody ever gets everything right

It's your first time on Earth too (Oh-oh)  
And I hope that you know that I don't blame you (You know I don't blame you)  
It's just pain that you were passing down  
I'm older, and I see it now  
It's your first time on Earth too
