

## Lay Low

Alex Wiley

Lay low, all I do is lay low  
Boolin' with the gang but I swear it's not a game  
Tryna get some shit for free you get what you paid for  
Alright, I've been feeling quite alright  
I've been having quite a night  
I've been living quite a life

Wizzle on some other shit  
Beam up to my mother ship, I don't like to wait for em  
Sacred like the Ark of the Covenant  
Admire without coveting, I will save the space for em  
Pivot to another thing, I will win the race for em  
Looking at the sky and I am one with things  
I'm just having fun with things  
He live life like he on acid, rolled up dope but he don't pass  
it  
I will never run in place, I'll forever run through space in ti  
me  
Remember when I used to face them dimes?  
You in a rat race a slave till the bottom line  
The letter of the law doesn't honor who we are  
All do respect your honor you can gargle on my balls  
To this one  
Do not get involved they told me  
Told me that they missed the old me  
Can I see what he sold me, this Universe and what it owes me

Lay low, all I do is lay low  
Boolin' with the gang but I swear it's not a game  
Tryna get some shit for free you get what you paid for  
Alright, I've been feeling quite alright  
I've been having quite a night  
I've been living quite a life
