Alex Wiley

I got the juice and the sauce
Pretty lil bitch in my loft
I get so deep in my thoughts
I fuck around and get lost
My name is ringing some bells yeah
Shout out to Kembe and Calez yeah
Them is my niggas for real yeah
Poppin I ain't talkin pills yeah
Go and don't go it alone
Focused on focusin more
Took a step back, looked at the throne
Now there's no where else to go, oh

I am on top of the world, I got that dope in my Earl
That means there's weed in my sweatshirt
I am not feelin no pressure, God gone use me as a vessel
We gone take it up some levels
Not a couple niggas several, I know
Ask me how I know

I feel like you got the facts wrong
Rollin up until the pack gone
We just kids tryna act grown
Young wizzle get his mack on
Duckin and dodgin the flatline
Don't give a shit bout your rap ties
To go with the shit I am that guy
Flow is so wet come get baptized

I am on top of the world, I got that dope in my Earl
That means there's weed in my sweatshirt
I am not feelin no pressure, God gone use me as a vessel
We gone take it up a couple levels
Not a couple niggas several, I know
Ask me how I know
