

Move Around

Alex Wiley

I wanna move around, I want you around
I wanna move the crew to every new in town
I wanna move around, I want you around
I just copped a zip and we blew it down
I wanna move around, I want you around
I wanna move the crew to every new in town
I wanna move around, I want you around
I just copped a zip and we blew it down

Back to the matter at hand
I got a couple bands in my pants now
Baby girl cancelled her plans
My feet in the sand with your finest
She just wanna dance in the van where they can't understand what we're sayin'
But I understand, we just triumph again
Scuba dive in Versace shades, dry off the lenses
I'm so pretentious, just exploring my interest
Resume extensive, non-labor intensive
My value's intrinsic, I can feel it, I sense it
I just bust down a Cohiba, came straight from Havana
Stuffed it with the kush, then smoked out the cabana
This the only time you ever catch me in some sandals
I am way too hot to handle

I wanna move around, I want you around
I wanna move the crew to every new in town
I wanna move around, I want you around
I just copped a zip and we blew it down
I wanna move around, I want you around
I wanna move the crew to every new in town
I wanna move around, I want you around
I just copped a zip and we blew it down
