

MYO Freestyle

Alex Wiley

It's been so long must have forgotten what they do around here
I grew up down the street but somehow I felt new around here
We used to row between and hopping trees and cruise around here
We used to win and loose and make a little moves around here

They make complains for a minute
I told them page all your feelings
This game done make me a menace
And I done been here the whole time
And you can go check the attendance
Been burning J's out the whole time
I fuck a check up in Venice
Get on your snickers and roll out
They bought that shit on the online
They brought that shit a persona
I just had lunch and the moma
I'm a unique type performer
I drink this shit like a warm up

I run it up when I wanna
I choose to live like a stoner
I'm rolling different
