Um yeah, aw aw yeah, aw yeah  
Aw yeah, yeah, aw yeah, yeah  
Aw, yeah, yeah, aw yeah

Hol, hold it, picture me rolling  
You gon bossing but them bitches was stalling  
Niggas had dreams but them bitches was stolen  
I keep my shit peeled so don't question my motives  
But, look at these niggas just posing  
They livin timid I get away bolder  
I am the boulder  
All of that weight put it right on my shoulder  
I can control it  
Yeah  
No longer the loser in case you ain't notice  
But I swear to God its the same dude inside of me brother in case you ain't  
know this  
Ay, shit ain't really made sense to me yet  
Daily battle not to mentally spazz  
Got too many fake friends to be sad  
I just put the little pen to me pad that eventually says:  
Ay, baby tell me what's good  
Trynna leave this whole world behind  
And you can come find ya boy in the woods now  
I can not put the kush down  
Baby tell me what's good now  
Leave this whole world behind and you can come find ya boy in the woods now

We're all insighting the change  
No use in fighting the wave  
I'm delighted to say  
You're all invited to stay  
We're all enlightened today  
Ay ay

Checked out  
Straight from the bottom of the basement  
I didn't lie to vindication  
They told me that I need lots of medication  
But I think he zoned out to my deficit  
This guy giving me lots of meditation  
So why don't you come take a ride to better places  
I'm trying to open your eyes into the Matrix I'm flying through  
This life from which I see it  
We were meant to be in  
A muthafuckin museum  
Sippin Chai Tea and Tai Chi and muthafucka you see 'em  
WACHAAW!

We're all insighting the change
