

# That's a Rule

Alex Wiley

I'm popping Xans and Percocets  
I sell them bands to your connect  
I never fronted  
That's a rule  
Don't give a damn 'bout your perception  
Oh no no no no no

I'm popping Xans and Percocets  
I sell them bands to your connect  
I never fronted  
That's a rule  
Don't give a damn 'bout your perception  
Oh no no no no no

Catch me rolling up the doja  
She pull up and drop it low

Catch me rolling up the doja  
She pull up and drop it low

I been dropping these bills  
On strippers and drugs  
I love how it feels  
That's why I been popping these pills  
My body is numb  
Throwing these ones  
Might just go cop me a crib  
On top of the hills  
Hoes in the tub  
She tells me to hop in the whip  
Her hand on my dick  
She want me to fuck

I be nervous while I'm speeding past the cop's lights  
Swerving in and out of lanes  
Blowing every stoplight  
Speeding up at stop signs  
Decisions is not right  
Calling up my lawyer like  
These charges getting dropped right  
No way  
No way  
Stopping and I never did change  
They gave me the drop but I'm making it rain  
They said that we could never make it  
Tell 'em to stop cause I'm making a lane

I'm popping Xans and Percocets  
I sell them bands to your connect  
I never fronted  
That's a rule  
I never fronted  
That's a rule  
Oh no no no no

I'm popping Xans and Percocets  
I sell them bands to your connect

I never fronted  
That's a rule  
I never fronted  
That's a rule  
Oh no no no no

Catch me rolling up the doja  
She pull up and drop it low

Catch me rolling up the doja  
She pull up and drop it low

Catch me rolling up the doja  
Like a pro yeah  
That's the protocol  
I'm like Prodigy's prodigy  
Don't know nothing 'bout no co-dependence  
And I'm cold cause I wrote with co defendants  
Sin without no repentance  
I grew up and I'm so relentless  
Got some demons don't make me rebrand  
On the news like CSPAN  
Been known that God got me  
In that godbody  
Like Morgan Freeman  
Let me watch you freefall  
Ain't sick of the freeloading  
Oh you want some prerolled?  
Just know that this shit not free fam  
Just know that this shit not free fam  
Just know that this shit not free fam

Still got some homies selling soda  
Paycheck coming from the block  
And I still ain't met the quota  
Goddamn I guess that's why

I'm popping Xans and Percocets  
I sell them bands to your connect  
I never fronted  
That's a rule  
I never fronted  
That's a rule  
Oh no no no no

I'm popping Xans and Percocets  
I sell them bands to your connect  
I never fronted  
That's a rule  
I never fronted  
That's a rule  
Oh no no no no

Catch me rolling up the doja  
She pull up and drop it low

Catch me rolling up the doja  
She pull up and drop it low

Okay I do my thing  
He dropped out of school  
To serve the weeds  
They say he blew the joint

I do all the math inside my head  
I do computer things  
I cannot stop wilding  
They do not know what to do with me  
Came up from the bottom  
I can't lie  
This shit is new to me  
What the fuck I'm finna do for me  
Even knowing you would see  
Always been a lunatic  
All I know is lunacy  
Everybody mad  
They want control over the next man  
I can't change what's true to you  
All I know is true to me

I got gas on my mind  
And my past way behind me  
I'm rolling up a dime  
And another dime  
Everybody's gone

I got gas on my mind  
And my past way behind me  
I'm rolling up a dime  
And another dime  
Everybody's gone
