Cough

At first I was fake coughing so you knew I was smoking  
Now I'm real coughing

Cough

Alright check it

Getting to the cash though, never been too bashful  
Spit it like I'm sipping Tobasco out the flask though  
Stay fresher than a tadpole, so tell me what you mad for  
Never been an asshole, okay I lied  
Whipping, whipping, whipping in the fast lane, nothing's meant  
to last mane  
Team on my back like it's my last name  
Burden me, hurting me, I am hurdling the past mane  
God built me sturdily, I ain't worried about the wrath mane  
Never been fazed  
I'm astounded at the foot of this mountain, ready to climb, say  
my grace  
Took a seat at the table, ready to dine, ready to find  
I bit off too much, overwhelming mouthfuls  
Meditate in front of fountains when in need of council  
Wonder what I'll amount to, they think they fucking with me  
Highly doubtful  
Wonder what Wiley 'bout to  
Do to these guys  
I don't do the disguises, I will out you  
I am the son, you are new to the skies but I will melt you  
Matter fact let me help you  
Matter fact I don't need to  
I would only mislead you  
Matter fact take this needle  
Matter fact free your mind and speak your truth and free your p  
eople  
I just hope they believe you  
I just hope they believe you  
Matter of fact free your mind and speak your truth and free you  
r people  
I just hope they believe you  
I just hope they believe you  
Matter of fact free your mind and speak your truth and free you  
r people  
I just hope they believe you  
I just hope they believe you

Sister's and brother's, the first thing I wanna say is that I l  
ove you, and the second thing I want to say is that we can win.  
And in order to win our liberation we have got to be competent  
. We have got to believe that we will win

Power to the people!
