

# Whip

Alex Wiley

Whip, whip  
Whip, whip  
I whip it, I whip it  
I whip it

Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me  
Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me  
Watch, watch, watch, watch

Bracing through the weaponry  
There is no destiny  
Nothing is set in stone  
Woke up in a bed of gold with a pedestal  
Lookin' up better game  
Came through looking real lost  
Came through out my bars  
Can't even light my torch  
I don't wanna ever feel frost  
No time, you don't even know us, nigga  
Live in the frost and I would have been in the [?] nigga  
Livin' through G, leaches and bitches wanna walk with ya  
I'm chasin' the high just at the moment the drugs hit ya  
I value my lungs, fuck swishers

I came through  
Flexin' now I came through  
Don't tell me what I can't do  
Flexin' now I came through  
I came through  
Flexin' now I came through  
Don't tell me what I can't do  
Flexin' now I came through

Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me  
Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me, whip, whip  
Watch me, watch me  
Watch, watch, watch, watch

I came through  
Flexin' now I came through  
Don't tell me what I can't do  
Flexin' now I came through

Amaze the world  
I can do anything I want  
In based world  
I can be whatever I wanna be  
Space God

And I said

I came through  
Flexin' now I came through  
Don't tell me what I can't do  
Flexin' now I came through
