

# Body Language

Alexa Cappelli

You've got a way with words  
Maybe it's charming  
Text during the party  
Sure that could suffice  
You know just what to say  
Write letters for me  
But it's kinda boring  
When I can't see your face

You call to flatter me all night, all night  
But I don't know if you can speak my, speak my

Body language (Do ya)  
Get impatient (Would ya)  
Hate it if I wanna keep a little of this tension  
I'm not saying (That I)  
Want you baby (But ya)  
Make me question all other forms of communication  
Body language

La-da-da-da-da-da  
La-da-da-da  
La-da-da

Pause the adrenaline  
Thinking you know me  
Baby, that's so sweet  
Where do I begin?  
Don't wanna throw you off  
But I can't just play along  
So tell me if I should pick up when

You call to flatter me all night, all night  
But I don't know if you can speak my, speak my

Body language (Do ya)  
Get impatient (Would ya)  
Hate it if I wanna keep a little of this tension  
I'm not saying (That I)  
Want you baby (But ya)  
Make me question all other forms of communication  
Body language

La-da-da-da-da-da  
La-da-da-da  
La-da-da  
Body language  
La-da-da-da-da-da  
La-da-da-da  
La-da-da

What's loudest is what isn't said  
You shower me with compliments  
Yeah, look at me with common sense  
(Look at me, look at me now)  
What's loudest is what isn't said  
The joke's on me, let's not pretend

I want to want you more than friends  
But baby, can you comprehend my

Body language (Do ya)  
Get impatient (Do you get impatient?)  
Hate it if I wanna keep a little of the tension (I kinda want the tension)  
I'm not saying (No, I'm not saying)  
I want you baby (But ya)  
Make me question all other forms of communication  
Body language

La-da-da-da-da-da  
La-da-da-da  
La-da-da (What isn't said, boy)  
Body language  
La-da-da-da-da-da (Oh)  
La-da-da-da (I don't know your)  
La-da-da (I don't know your)  
Body language
