

Five Minutes

Alexa Cappelli

Verse 1

Where'd you get the bullet?
Hit me with "I want you" and now I'm goin' through it, like
Don't wanna mean this in the worst way
I kinda hope you're doin' okay

Verse 2

If only I knew it
That I'd be over here wishin' we could just redo it, 'cause
I'm still waitin' for a good day
I just wanna have a good day

Pre-Chorus

And I think your love convinced me I needed it
When I said goodbye, thought I'd be over it

Chorus

But I'm still checkin' my phone every five minutes
I know I don't need you
But you're still stuck in my head for the fun of it
I don't know what to do
Oh, oh, oh-oh, oh
And you could be dead now, I wouldn't know it
I'd be checkin' my phone every five minutes
Countin' down to get over you

Verse 3

I went from your good side
To cryin', to screamin', to not even on your mind
But I wanna see where it goes (I wanna see)
Do you miss me on the way home? (Do you miss me?)

Pre-Chorus

'Cause I think your love convinced me I needed it (I think your love, I think your love)
When I said goodbye, thought I'd be over it

Chorus

But I'm still checkin' my phone every five minutes
I know I don't need you
But you're still stuck in my head for the fun of it
I don't know what to do
Oh, oh, oh-oh, oh
And you could be dead now, I wouldn't know it
I'd be checkin' my phone every five minutes
Countin' down to get over you

Post-Chorus

Countin' down to get over you
Countin' down to get over you

Bridge

Tryna distract myself, so ambitious
Fillin' my days with people, still missin' you
And your midday calls and well wishes
But it's over now
And look at you stayin' strong, no drunk texts

Out of all the things I can't forget
How we left so much of this unsaid
But it's over now

Chorus

And I'm still checkin' my phone every five minutes (Phone)
I know I don't need you
But you're still stuck in my head for the fun of it
I don't know what to do
Oh, oh, oh-oh, oh
And you could be dead now, I wouldn't know it (You could be dead now, I wouldn't know it)
I'd be checkin' my phone every five minutes
Countin' down to get over you

Post-Chorus

(Oh-oh) Countin' down to get over you
Countin' down to get over you
