

SAY SOMETHING

Alexa Cappelli

Mutual friends met you in the summer, so innocent
Busy weekends, one after another
Dreaming, falling

So flirtatious, you could be fun
But I'll only chase if there's somewhere to run

Braver on the phone, than face-to-face
Playing hard to get, it ain't my thing
You're cool, but I don't wanna overthink
If you wanted me, you'd say something
Taking up all my energy
Wishing you would make a move on me
You're cool, but I don't wanna overthink
If you wanted me, you'd say something

Wanna forget it
Find a better problem to solve, then you (Solve you)
Heaven sent, thinkin' that you're perfect
I don't blame you (Blame you)

So flirtatious, you lead me on
But I'll only chase if there's somewhere to run

Braver on the phone, than face-to-face
Playing hard to get, it ain't my thing
You're cool, but I don't wanna overthink
If you wanted me, you'd say something
Taking up all my energy
Wishing you would make a move on me
You're cool, but I don't wanna overthink
If you wanted me, you'd say something

If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something

If you wanted, if you wanted me
You would say, you would say something
If you wanted, if you wanted me
You would say, you would say something

Braver on the phone, than face-to-face
Playing hard to get, it ain't my thing
You're cool, but I don't wanna overthink
If you wanted me, you'd say something
Taking up all my energy
Wishing you would make a move on me
You're cool, but I don't wanna overthink
If you wanted me, you'd say something

If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something
If you wanted me, you wanted me, you'd say something
