

The Other Side

Alexa Cappelli

Pull away the cover let me see you
You don't have to hide the stains underneath
All the colors that make you
All the reasons that you're hiding

I know the light is easy to love
But that can't be all you are

So show me the other side
Show me the places you hide
Let me see everything inside
I want to know you
Show me the other side
What are your favorite lies and
Where are the biggest mountains
You've been waiting all your life
To get to the other side

The other side
The other side

Will you be there when I need you
This is real, this is new, this is hard
Take these broken walls and push through
You've already come this far

So show me the other side
Show me the places you hide
Let me see everything inside
I want to know you
Show me the other side
What are your favorite lies and
Where are the biggest mountains
You've been waiting all your life
To get to the other side

The other side
The other side
The other side
The other side

I know the light is easy to love
That can't be all you are
I'm usually strong enough
But I've fallen just as hard

I've shown you my other side
Shown you the places I hide
You can see everything inside
Know that I love you
The other side
You know my favorite lies and
You've seen the biggest mountains
I've been waiting all my life

To get to the other side
The other side

The other side
Show me the other side
The other side
The other side
