

Bomb

AleXa

Knock knock here we go
I can't wait anymore
Where do I begin?
I can't tell anymore
It's always the same
When no one knows your name
I'm done with it all
I can't take anymore

It's the first time take my hand
This is something words can't show (oh)
From the ashes we will rise
See the fire in my eyes glow
(Yeah)

Don't be surprised
Today you're learning
Hand in the flame
Feel the heat burning
Hot like the sun
You know I'm the one (one, one)
Let's have some fun
The world keeps turning

Shout it from the top
I'm too busy for you, I can't stop
If you come with me
I will you make you see

Nareul naebeo ryeodwo bomb
Naega wonhaneun geon bomb
Boom boom boom boom boom
So get ready now
If you think that you can handle me
Then don't just sit and wait
(Can't nobody else be bomb)
Come along with me
And raise your voices
Don't wanna be late
(This right here is real)

All you see is red
So many thoughts inside your head
Got no heart, no soul
Light it up, you're ready to blow
(Hold up, hold up oh)

Swipe the pics on Instagram
No second thought about it
Are you liking what you see? (Me likey, likey)
If you're wanting soft and sweet
Better turn around, yeah
You won't find an angel here (No likey, likey)

Jealousy and rage
It's time to turn the page

Nareul naebeo ryeodwo bomb
Naega wonhaneun geon bomb
Boom boom boom boom boom
So get ready now
If you think that you can handle me
Then don't just sit and wait
(Can't nobody else be bomb)
Come along with me
And raise your voices
Don't wanna be late
(This right here is real)

Like a bomb bomb

Nareul naebeo ryeodwo bomb
Naega wonhaneun geon bomb
Boom boom boom boom boom
So get ready now
Come along with me
And raise your voices
Shout it from the top
(Are you ready, set and bomb)
No one else but you can live your story
Never gonna stop
We gon' drop it like a bomb
