

# Juliet

Like Romeo  
And Juliet  
It seemed like fate  
When we first met  
Those happy days  
Just drift away  
With nothing left  
But night and day  
Wish memories could fade  
Cause why'd you even say  
You loved me to my face  
You lied  
(And now it's all gone away)

And you say  
You needed me  
But you lied  
You're the one  
Laughing  
While I bleed

Maybe we weren't meant to be  
Just two star-crossed lovers in  
An endless sea  
We drown  
Another one just bites the dust  
We were Romeo and Juliet  
If Romeo was never in-  
The stars aligned and  
The fates allowed us to be  
Everything and nothing all once  
Another one just bites the dust  
We were Romeo and Juliet  
If Romeo was never in-

I'm calling out to you  
Why don't you hear me now  
I've got nothing to lose  
You bring me down  
(Although it hurts, I won't cry)

We've  
Been chasing a dream  
It isn't what it seems  
Cause

Maybe we weren't meant to be  
Just two star-crossed lovers in  
An endless sea  
We drown  
Another one just bites the dust  
We were Romeo and Juliet  
If Romeo was never in-  
The stars aligned and  
The fates allowed us to be  
Everything and nothing all once  
Another one just bites the dust

We were Romeo and Juliet  
If Romeo was never in love

I feel so broken right now  
Somebody heal me, I'm losing all feeling  
The ghost of you keeps on haunting me  
Still see your face  
Can't walk away  
Hey, you  
Do you see me now?  
All the damage you've done  
Hope it comes back around  
These wounds will heal  
And I'll smile again  
But back when

The stars aligned and  
The fates allowed us to be  
Everything and nothing all at once  
Another one just bites the dust  
We were Romeo and Juliet  
If Romeo was never in love

Like Romeo and Juliet  
We fell apart  
I can't forget
