

Something New

AleXa

I don't know how to break it to you
But these words don't mean anything no more, no more
I'm saying if what we had counts as a romance
Well, I'm sure it's nothing that you can't ignore
I'm burnin' all of my bridges
Set it on fire for the hell of it

Suffocate, won't let me breathe
Wanna get away so desperately
Daytime eclipse, summer snow
Just like a fish, I'm out of water
I got nowhere to go
A silent song you play so loud
Can't get out of my head
(So, just shut the **** up!)

First time, I was a wreck with a left, right
Can't tell the difference, I'm fallin' under
Don't let me think about it
Forget about the good times, memories made
They're all in my mind, hide it away
'Cause I don't wanna be the ghost of you, 'cause we're through
Got me looking for a brighter view
To find something new

Lovesick but I'm the one who's dyin'
Hate this, but we just keep on tryin' again
It goes back and forth again
Comin' home to the same old thing (Oh, oh, oh)
No break in the routine
Go through the motions like machines, 'cause
I was dropped in, they keep my wings from flyin'
Stuck in the storm, when will I see the end?
Day in and day out, compare the then versus now (Oh)
What happened to who I knew?
Played the fool, what's the truth, you know?

Suffocate, (Suffocate) won't let me breathe (Let me breathe)
Wanna get away so desperately
Daytime eclipse, summer snow
Just like a fish, I'm out of water
I got nowhere to go
A silent song you play so loud
Can't get out of my head

First time, I was a wreck with a left, right
Can't tell the difference, I'm fallin' under
Don't let me think about it
Forget about the good times, memories made
They're all in my mind, hide it away
'Cause I don't wanna be the ghost of you, 'cause we're through
Got me looking for a brighter view
To find something new

Break my trust and break my chains
And now I'm free from unregarded pains (Oh)
Blue sky paradise, I'm gonna fly

Oh, I can't wait 'til I say goodbye
Break my trust and break my chains
And now I'm free from unregarded pains (Sayin' goodbye)
Blue sky paradise, I'm gonna fly
Oh, I can't wait 'til I say goodbye

First time, I was a wreck with a left, right
Can't tell the difference, I'm fallin' under
Don't let me think about it
Forget about the good times, memories made
They're all in my mind, hide it away
'Cause I don't wanna be the ghost of you, 'cause we're through
Got me looking for a brighter view
To find something new
