

Under The Armor

AleXa

Light me up, set the sky on fire
Can't reach us, come on try...
Won't give up, keep me climbing higher
Best of luck, I'm untied...

Light it up, come on lock and load
Had enough so now watch me blow
Keep you up on your tippy-toes
Love my enemies, keep 'em close

I keep my cool, got eyes on you
I live my truth, and here's the proof

Wild gunslinger
This a big deal stick up
Let me paint the picture
I'm here to stay, now meet your maker

Ashes to flame, let it take control
You can't escape what's under the armor
I'm here to stay, wait for it to unfold
You can't escape what's under the armor

Vámonos, vámonos, let's vámonos, ooh ooh
Dominoes, dominoes, they're falling down, ooh ooh
Ashes to flame, let it take control
You can't escape what's under the armor

Gonna be the one to fire, smoking gun
Part of me don't wanna but the game is on
Took the stage with the bomb bomb bomb
Do or die and we won won won

I might get some bruises, but I get back up again
Ain't gonna lose this, I'll fight to the end

Wild gunslinger
This a big deal stick up
Let me paint the picture
I'm here to stay, now meet your maker

Ashes to flame, let it take control
You can't escape what's under the armor
I'm here to stay, wait for it to unfold
You can't escape what's under the armor

Vámonos, vámonos, let's vámonos, ooh ooh
Dominoes, dominoes, they're falling down, ooh ooh
Ashes to flame, let it take control
You can't escape what's under the armor

Yeah
What's under the armor
What's under the armor
What's under the armor
What's under the armor
What's under the armor

Meet your maker

Ashes to flame, let it take control
You can't escape what's under the armor
I'm here to stay, wait for it to unfold
You can't escape what's under the armor

Vámonos, vámonos, let's vámonos, ooh ooh
Dominoes, dominoes, they're falling down, ooh ooh
Ashes to flame, let it take control
You can't escape what's under the armor
