

Nothing's The Same

Alexander 23

You go ahead I think I'll stay in for the winter
Can't quite remember when I even got this bitter
And how do you live like that?
So uncomplicated by the
Weather in December think I'll stay in for the winter

Nothing is the same as it used to be
Even my friends can't talk to me
Used to have fun now we only get together

Nothing is the same as it was before
Lost track of time at the grocery store
Wondering if I've felt this way forever

It gets hard to remember
It gets hard to remember

You go ahead you're probably better off without me
Just take a look at all the heartbreak that surrounds me
Oh how do you live like that?
So at peace with all the war
Whatever like I said you're probably better off without me

Nothing is the same as it used to be
Even my friends can't talk to me
Used to have fun now we only get together

Nothing is the same as it was before
Lost track of time at the grocery store
Wondering if I've felt this way forever

It gets hard to remember
It gets hard to remember

Nothing is the same as it used to be
Even my friends can't talk to me
Used to have fun now we only get together

Nothing is the same as it was before
Lost track of time at the grocery store
Wondering if I've felt this way forever

It gets hard to remember
