

When I Die

Alexander 23

I hope that people are sad when I die
But that I don't die for a long time, no
If I go soon, have a drink and sing along
I hope that people are sad and they cry
But that they don't cry for a long time, no
If I go soon, have a drink and sing along
And sing it loud, oh, sing it loud

I hope that people are sad when I die
And talk about all of the times
I gave a dollar to a stranger who needed it more than I
I hope that people are sad when I die
I hope they all go tell my mom
And my dad that they raised me right
Despite all of the mistakes that I made
I'm sorry if I forgot to text you back
But I swear I had your back
If someone talked behind your back

I hope that people are sad when I die
But that I don't die for a long time, no
If I go soon, have a drink and sing along
I hope that people are sad and they cry
But that they don't cry for a long time, no
If I go soon, have a drink and sing along
And sing it loud, oh, sing it loud
Sing it loud, oh, sing it loud

(If I was dead for a million years before this point
And I'll be dead for a million years before I die
Then life is just a blip in the infinity of time
So love love and hate hate
So love love and hate hate)
