

Coming Down

Alexander Jean

How in the hell did you get me on the floor
Slipped in my drink can't feel my teeth anymore

You and me and Mandy got no plans tomorrow
Maybe we should stay awake
That's not how we say it here in California
But baby, I'm down either way

We're not coming down
We're not coming down

How do you feel, I feel great, I need more okay
Kissing glitter lips our fingertips want to explore

Ooh, me and Mandy we got something for ya
Baby let's go back to my place
I don't know how you say it here in California
But baby, I'm down either way

We're not coming down
We're not coming down

I only wanna do what I wanna do
And what I wanna do is start raging
I only wanna do what I wanna do
And if you don't wanna do then you're crazy

You and me and Mandy got no plans tomorrow
Maybe we should stay awake
Okay

We're not coming down

I only wanna do what I wanna do
And what I wanna do is start raging
We're not coming down
I only wanna do what I wanna do
And if you don't wanna do then you're crazy
We're not coming down

I only wanna do what I wanna do
And what I wanna do is start raging
We're not coming down
I only wanna do what I wanna do
And if you don't wanna do then you're crazy
We're not coming down

I only wanna do what I wanna do
And what I wanna do is start raging
