

Drunk

Alexander Jean

11 o'clock I'm trying to get out the door
She's still trying outfit number four
And I just wanna get us to the place
Where people go
11:11 take a shot, let's go

Follow me, I'll have another whiskey neat
I know you want a drink with a pink umbrella
Debachurrey's curing my anxiety
Till I'm spinning like a big propeller

Body shots out of our navels
Dancing like strippers on tables

I fucking love it when you're drunk
Let everybody stare at us
They're gonna throw us out the pub
I fucking love it when you're drunk
I fucking love it, love it

1 am and she got that look in her eye
She's ready to go and I don't mean home for the night

Follow me, I don't need another drink
I wanna wrap my legs around you
I'll take you to the ladies room
Show you all my yoga moves
Throw me up on the bathroom counter

Body parts all in a tangle
Damn you look good from this angle

I fucking love it when you're drunk
Let everybody stare at us
They're gonna throw us out the pub
I fucking love it when you're drunk
I fucking love it, love it
I fucking love it, love it

I go hard, but you go harder
I get down, but you go farther
You a crazy mother fucker
Ya you are, ya you are
You know I love it when you're...

I fucking love it when you're drunk
Let everybody stare at us
They're gonna throw us out the pub
I fucking love it when you're drunk
I fucking love it, love it
I fucking love it, love it
