

# High Enough

Alexander Jean

If you can get away with murder  
If you can get away with burglary  
Or whatever gets you higher  
Whatever gets you through the day

Finally when I find something I like  
I erase and rewrite  
I keep on trying to quiet my mind  
But it won't go away

Sometimes I watch the sunrise  
'Cause I've been up all night  
And I don't wanna go home  
Sometimes I think that I can fly  
But when I reach the sky  
Ooh you got me so low

I can't get high enough  
I can't get high enough  
I can't get high enough  
I can't get high enough

If I aim a little further  
Somewhere over Mercury, yeah  
Could I make it last forever  
Far above reality

Meetin' the maker before it's my time  
Yes no plan of mine  
Nothing can stop me from living this life  
Until I float away  
And finally when I find something I like  
I erase and rewrite  
I keep on trying to quiet my mind  
But it won't go away

Sometimes I watch the sunrise  
'Cause I've been up all night  
And I don't wanna go home  
Sometimes I think that I can fly  
But when I reach the sky  
Ooh you got me so low

I can't get high enough  
I can't get high enough  
I can't get high enough  
I can't get high enough

If you can get away with murder  
If you can get away with anything

Sometimes I watch the sunrise  
'Cause I've been up all night  
And I don't wanna go home  
Sometimes I think that I can fly  
But when I reach the sky  
Ooh you got me so low

I can't get high enough  
I can't get high enough  
I can't get high enough  
I can't get high enough
