

Rainbow

Alexander Jean

Give me some good news
Something to look forward to
Nothing I could do
Would put the life back into you

I don't know what to say
Life is pretty strange
Like rain in mid July
It's funny in a way
How quickly it can change
But a rainbow ain't far behind
I'll be alright
Healing just takes time... right?

My heart turned to stone
Cos it don't beat with yours no more
And I'm scared of getting older
Just leave me here to grieve alone

I don't know what to say
Life is pretty strange
Like rain in mid July
It's funny in a way
How quickly it can change
But a rainbow ain't far behind
I'll be alright
Healing just takes time... right?

I couldn't tell you why
There's gotta be a reason
It's not a lullaby
But I'll see you when I'm dreaming
Couldn't tell you why
There's gotta be a reason
It's not a lullaby
But I'll see you when I'm dreaming

Couldn't tell you why
There's gotta be a reason
It's not a lullaby
But I'll see you when I'm dreaming
