

## How It Rolls

Alexander Ludwig

Baby, I'm a free and easy guy  
I blow with the wind  
I'm a dreamer at heart  
With my soul in the fast lane  
From the second we met you were down, girl  
You just wanted to fly  
I still get that first time feeling  
When you say my name

I like how it rolls  
Like honey off of your tongue  
Sure sounds to me like true love  
Ain't no way it ever gets old  
I like how it rolls  
When we're skin on skin  
Day into night into day again  
Like a sunrise into moonlight  
This life when you're all mine  
Baby, I like how it rolls  
Baby, I like how it rolls

Nothing gets me going like the sound  
Of wheels on a gravel road  
Means I'm further from the world  
And a little bit closer to you  
We let time float by like a river  
And girl, we don't care  
It's a helluva way to kill a night  
Just sipping a drink or two

I like how it rolls  
Like sweat off the bottle  
The way you like to lean on the throttle  
Ain't no way it ever gets old  
I like how it rolls  
When we're skin on skin  
Day into night into day again  
Like a sunrise into moonlight  
This life when you're all mine  
Baby, I like how it rolls  
Baby, I like how it rolls

I like how it rolls  
Baby, I like how it rolls

I like how it rolls  
Like honey off your tongue  
Sure sounds to me like true love  
Ain't no way it ever gets old  
I like how it rolls  
When we're skin on skin  
Day into night into day again  
Like a sunrise into moonlight  
This life when you're all mine  
Baby, I like how it rolls  
Baby, I like how it rolls

I like how it rolls  
When we're skin on skin  
Day into night into day again  
This life when you're all mine  
I like how it rolls
