

Look At Us Now

Alexander O'Neal

It seems so easy
But love has its ways
I've been taking your for granted
Now I'm begging you to stay
Who's to say love's not always right?
Should we carry on or leave it all behind?

Leave it all behind

You tell me, baby, what's on your mind
I keep searching, always wondering why
You gotta be creative to keep a love alive
I still love you baby, and I'm willing to try
'Cause you are the one for me
Girl, 'cause you are the one, the only one for me

Look at us now
Will we always be together?
Who's to say
Look at us now
We don't need to look no further
Maybe we can see
Love is all we need

Love is all we need
Yeah, yeah, yeah, yeah

Our world was waiting for us to fall
Guess there's always room for another broken heart
But it's sad to be lonely, and it's hard to make love right
If you still love me baby, tell me that you're willing to try
'Cause you are the one for me
Girl, 'cause you are the one for me, for me, for me

Look at us now
Will we always be together?
Who's to say
Look at us now
We don't need to look no further
Maybe we can see
Love is all we need

Now I know what's right for me
Love
Now I know what's right for me
Yeah

Look at us now
Will we always be together?
Who's to say
Look at us now
We don't need to look no further
Maybe we can see
Love is all we need
