

Love Finds A Way

Alexander O'Neal

Tell me what can you give me
That I can't get from anyone
What makes you different
How much is your love
If I stop to think about it
It brings me to my knees and I

I hope that love, love gon' find a way
I said love, finds a way
I hope love finds a way
Strong enough to heal the pain and I said
Love, finds a way

Tell me how can you see me
When you don't know who I am
How can you need me
When I'm just some man
And I will, see the light
When so many can fall

I know that love, love will find a way
I said love, will find a way
I hope love finds a way
Strong enough to heal the pain and I said
Love, will find a way

Tell me how can you heal me
When you don't know who I am
Some way you are so different to me
I just reach out my hand
If I stop and think about it
It brings me to my knees
And I hope that

I hope that love, love gon' find a way
I said love, finds a way
I hope love finds a way
Strong enough to heal the pain and I said
Love, finds a way

Oh I hope that love will find a way
I said love, finds a way
I hope love finds a way
Strong enough to heal the pain and I said
Love finds a way
