

## Somebody (Changed Your Mind)

Alexander O'Neal

I wonder what brought this on  
Who was the go-between  
What doggie dropped you this bone  
Ever since we've been together we've been able to trust

But somebody changed your mind  
Somebody changed your mind  
We come and we go without question, now suspicion is high  
'Cause somebody changed your mind, somebody changed your mind

Tell me who  
Was it the magazine that asked, "Is he all yours?"  
Was it the show you watched  
The show when Oprah did the interview  
With men who want free love  
There's no doubt about it  
Something's on the grapevine

'Cause somebody changed your mind  
Somebody changed your mind  
Accusing men who are not guilty  
Seems to be the real crime  
'Cause somebody changed your mind  
Somebody changed your mind  
Who's gonna take the blame, who's  
Gonna take the blame  
'Cause somebody changed your mind  
Somebody changed your mind  
Tell me who

Your suspicious ways, came so suddenly  
From all the propaganda baby, and your insecurities  
You can trust me
