

One More Dance

Alexander Oscar

We're bulletproof
So perfect on the paper
Nothing here could break us
And I tell myself
To stay here in the moment
Leave the rest unspoken

All these questions need an answer
But I just push them to the side
I'm afraid they're gonna scare ya
So I keep 'em in my mind
So what would happen if I surrender
Would you catch me if I fall
Are we stuck like this forever

One more dance
One more night
One more touch
Maybe it will make us fall in love
Give it time
To make it feel right
Don't give up
Maybe it would make us fall in love

Bottles of wine
Are empty on the floor like so many times before
Oh, how far can we go
Before we hit cold ground
And all the candles burn down

So what would happen if I surrender
Would you catch me if I fall
Are we stuck like this forever

One more dance
One more night
One more touch
Maybe it will make us fall in love
Give it time
To make it feel right
Don't give up
Maybe it would make us fall in love

One more dance
One more night
One more touch
Maybe it will make us fall in love
Give it time
To make it feel right
Don't give up
Maybe it would make us fall in love

(Could it make us fall in love)

One more dance
One more night
One more touch

Maybe it will make us fall in love

(One more dance

One more night

One more touch)

Maybe it will make us fall in love

(Give it time

To make it feel right

Don't give up)

Maybe it would make us fall in love
