

# Sunlight

Alexander Oscar

I get lost in the city of fire  
(I'm on my way)  
I roam the streets but I can't seem to find ya  
(I don't know where)  
I'm going in and out of my mind  
Feels like I'm walking on a tight line  
I need you now, but I can't seem to find ya  
(I hear you calling in the distance)

Oh oh oh  
I follow your echo  
I follow your echo  
Oh oh oh  
Why do I get lost

When I look at you...  
I see stars on a dark sky  
You... make me warm light the sunlight  
Love how you don't know you make angels feel bad, I want that  
You... make me warm like the sunlight

I feel it coming  
I can't deny  
You make nervous  
I come alive  
Yeah, in your eyes  
I see the skies  
Just let me fall in  
To your divine

Oh oh oh  
I follow your echo  
I follow your echo  
Oh oh oh  
Why do I get lost

When I look at you...  
I see stars on a dark sky  
You... make me warm light the sunlight  
Love how you don't know you make angels feel bad, I want that  
You... make me warm like the sunlight

Dunno what I'd do if you decided to leave me  
Baby, don't you let me go  
Cause I've never had a feeling like this, just believe it  
Yea, I gotta let you know

When I look at you...  
I see stars on a dark sky  
You... make me warm light the sunlight  
You...  
I see stars on a dark sky  
You... make me warm light the sunlight  
Love how you don't know you make angels feel bad, I want that  
You... make me warm like the sunlight
