

# That's How You Write a Song

Alexander Rybak

If you got a minute  
Get down your idea  
It might do wonders  
Maybe disappear  
Who knows? Just get it down  
And nothing can go wrong  
Go find your rhythm  
That's how you write a song

Enjoy the small things  
With time they will get big  
Gotta find your mission  
A mission to pursue  
You know you got a talent  
Whatever it may be  
So work your magic  
And sing along with me

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
That's how you write a song

Sing shoobie doobie dat dat (shoobie doobie dat dat)  
Shaba daba hey (shaba daba hey)  
Say all day long (all day long)  
And that's how you write a song

I say skoobiedoobiedobuppa (skoobiedoobiedobuppa)  
Boogie boogie woogie (boogie boogie woogie)  
Say all day long (all day long)  
See that's how you write a song

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
That's how you write a song

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
That's how you write a song

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
That's how you write a song

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
That's how you write a song

Step one: believe in it  
And sing it all day long  
Step two: just roll with it  
And that's how you write a song

See that's how you write a song  
And that's how you write a song
