

drunk thought

Alexander Stewart

I bite my tongue even though it's hurtin'
I keep your secrets 'til my chest is burnin'

You never say I'm yours out loud
'Cause I know you're way too fuckin' proud
So I play my part and I'll take your burden

I'm just a drunk thought
Someone to call when you need love
At 2 AM when you leave the club
'Cause I'm the one 'til you sober up
I'm just a drunk thought
One you forget when you wake up
I'm never enough 'til I'm all you need
It's killin' me, I'll always be
A drunk thought

I don't know why but I'll always want you, uh
Had me second plan, when your first one falls through

It hurts so bad to fall so deep
For something you could never keep
So I'll wait for your name on my phone to come through

I'm just a drunk thought
Someone to call when you need love
At 2 AM when you leave the club
'Cause I'm the one 'til you sober up
I'm just a drunk thought
One you forget when you wake up
I'm never enough 'til I'm all you need
It's killin' me, I'll always be
A drunk thought

I'm just a drunk thought
Call me 'cause you know I'll pick up
It's like you don't care I'm just human
One day, I hope that I'm worth it
'Til that, I'll just be

A drunk thought
One you forget when you wake up
I'm never enough 'til I'm all you need
It's killin' me, I'll always be
A drunk thought
