

# how dare you

Alexander Stewart

I know how to blame myself  
That part comes easy  
I've been putting me through hell  
Wanting you to need me

I was digging my own grave  
Only there to be replaced  
Swear to God my worst mistake

How dare you  
Fuck up my life  
All of my nights?  
I was just fine  
But that was before I met you

Leading me on  
Wish I was wrong  
But it's alright, it's not like I cared about you

Wish I could wish you the worst  
If I had the words I'd tell you how bad this hurts

I lost my mind  
Wasted my time  
Watching you fuck up my life  
How dare you?

24 months down the line  
And I still can't shake you  
You could ghost and cheat and lie  
But I still can't hate you

I was digging my own grave  
Only there to be replaced  
Swear to God my worst mistake

How dare you  
Fuck up my life  
All of my nights?  
I was just fine  
But that was before I met you

Leading me on  
Wish I was wrong  
But it's alright, it's not like I cared about you

Wish I could wish you the worst  
If I had the words I'd tell you how bad this hurts

I lost my mind  
Wasted my time  
Watching you fuck up my life  
How dare you?

How dare you  
Fuck up my life  
All of my nights?

I was just fine  
But that was before I met you

Leading me on  
Wish I was wrong  
But it's alright, it's not like I cared about you

Wish I could wish you the worst  
If I had the words I'd tell you how bad this hurts

I lost my mind  
Wasted my time  
Watching you fuck up my life  
How dare you?
