

## knowing you exist

Alexander Stewart

I still remember the night that I met you  
The sound of your laugh  
That never left me  
But go and I'll try to meet someone new  
Now that something I've forgotten completely

It's all I want

How am I supposed to go out and find love again?  
Oh, you know what it is  
'Cause you showed me it exists  
How am I supposed to feel all the things that we felt  
But with somebody else?  
Knowing you exist

(Knowing you exist)

I never say, "I wish I had never met you"  
But sometimes, I think it would be easier  
Than spendin' my days just tryin' to forget you  
In every new face, I only see yours

It's all I want

How am I supposed to go out and find love again?  
Oh, you know what it is  
'Cause you showed me it exists  
How am I supposed to feel all the things that we felt  
But with somebody else?  
Knowing you exist

I'm where I'd be without me  
Do you still think about me?  
Can't say how much it kills me  
Just knowing you exist  
Somewhere I'll never meet ya  
I hate how much I need ya  
No one will ever be you

How am I supposed to go out and find love again?  
Knowing you exist  
How am I supposed to feel all the things that we felt  
But with somebody else?  
Knowing you exist
