

Maybe

Alexander

Every time I see you every time I touch you
You kiss the past goodbye
Oh every time you'll tell me that you really love me
I feel like I can fly
I miss you like the sunshine
Miss you like the heaven
See what love can do
Dreams that money can't buy
I'll give you everything girl
All this and heaven too
Why do you say goodbye?
When the night comes falling from the sky

Maybe I'm right maybe I'm wrong
The only thing I know is Baby you're the one
Maybe I'm high maybe I'm down
But I never ever want to be alone

Whatever makes you lonely whatever makes you crying
Baby I'm still here the sky is getting blue girl
Baby when I see you
I'll take away your fears
My door is always open
'Hello little angel' please don't fly away
Love is more than a feeling
I lonely in my nightmare
Baby can't you stay?
Where did you sleep last night?
Can't you stay by my side
